PRIMARY SCHOOL

6th March 2023

2023-087

Dear Parents/ Guardians,

World Water Day 2023 – Make Every Drop Count!

We are celebrating World Water Day!

Singapore World Water Day is celebrated on **22 March 2023**. The Public Utilities Board (PUB), Singapore's National Water Agency initiates the #GoBlue4SG Movement to rally the public and businesses to support and champion the water cause, as well as to build a strong water-conscious culture in Singapore.

In alignment with the initiative, we are inviting your child/ ward to dress up in blue to show our commitment to water sustainability on this day. Students may come to school dressed in a plain blue T-shirt (minimal prints acceptable), with school shorts/ skorts and school shoes throughout the day.

Throughout the week, there will be an assembly talk, presentation by students, posters display and recess booth activities to increase students' mindfulness of their water habits so that they can "Make Every Drop Count".

We hope you can find time to help your child/ ward with these preparations. Thank you for working with us to help conserve water.

Yours sincerely,

Mdm Lim Wan Jo
