Dear Parents / Guardians,

PAM Fiesta 2023

Greetings from the CPS family! We are thrilled to announce the upcoming PAM Fiesta, a much-anticipated annual event focused on promoting the love for the arts and fostering a healthy lifestyle among our students. The PAM Fiesta is scheduled to take place during the last week of Term 3, from 28 to 29 August 2023, and we are excited to showcase the sporty, artistic, and musical talents of our Cantonment students.

This year's theme is "Healthy and Sustainable Existence". During the event, students will actively participate in a variety of enriching activities, including music, art, and physical endeavours. They will have the opportunity to witness captivating performances by the winners of the Gems Jam competition during assembly and recess. Moreover, recess time will also offer them the chance to explore various art activities such as painting, drawing, and craft work.

PE: Embracing PE's Core Values - Nurturing Learning through Critical & Inventive Thinking

We will be showcasing the P5's PE Projects: "Inventing Games!" Students can join us at our booths to visually experience their top picks for the games they have invented. Game stations will be set up during the P5 and P6 recesses, allowing students to try out their invented games as well.

In line with our school's efforts to promote eco-stewardship and sound sustainability practices, we have partnered with NParks for the "Gardening with Edibles" initiative. As part of this initiative, we encourage healthy eating of vegetables.

If you are interested in this collaboration, please indicate by clicking 'Yes,' and your child/ward will bring a seed packet home during recess. You may view the attached video link for families to grow edible plants at home, promoting a gardening journey and healthy eating lifestyle.

Art: Embracing Art's Core Values - Unleash Your Creativity at Our Art Booths! "Deliciously Singaporean" Exhibition

We are hosting the National Heritage Board exhibition, "Deliciously Singaporean," in August. Through artefacts and interactive stations, students will learn about Singapore's heritage by tracing the origins and evolution of our traditional dishes up to the present day. Our Primary 2 students will be especially excited as they have created

artworks of traditional dishes for their Inter-Disciplinary Project Work on the same theme.

Live Drawing and Vegetable Stamp Stations

Step into our Live Drawing Station, where blank canvases await your child's artistic touch. Join us on this artful journey, where every stroke celebrates the essence of artistic expression and the heart of meaningful values.

Discover the magic of nature's gifts at our Vegetable Stamp Station. By using local fruits and vegetable scraps to create art, students learn the value of respecting the environment. This unique approach sparks imaginative ideas while promoting sustainable practices in art. Collaborating with nature, they'll find beauty in the simplest of elements.

Music: Harmonious Beats for a Greener Tomorrow!

At our recess booth, students will embark on a musical journey that showcases the Primary 2 music curriculum with Chrome Music Lab apps. They will explore the captivating world of music while connecting with the theme of sustainability. Engaging with intuitive tools like Rhythm, Song Maker, and Spectrogram, students will discover eco-inspired sounds, fostering an appreciation for the wonders of the environment.

Rhythmic Grooves: Exploring the World of Beats and Rhythm!

Part of the Primary 5 music curriculum, this drum set extravaganza invites students to unleash their creativity and embrace the joy of percussion. Through the primal act of drumming, students cultivate physical wellness by engaging their motor skills, promoting cardiovascular health, and releasing stress.

Thank you for your continuous support, and we eagerly look forward to your child/ward's enthusiastic participation, making the PAM Fiesta a meaningful and enriching experience for them.

Yours sincerely,

Ms Loh Li Yoke
PAM Fiesta Teacher-in-charge
