Ref: 2024-230

Dear Parents and Guardians,

**Provision of Sheltered Basketball Court for Cantonment Primary School**

Our basketball court will be upgraded with a shelter. This is part of MOE's initiative to provide more conducive and weather-proof spaces for our student's sports and activities.

The works are scheduled from August 26, 2024 to 27 February, 2025. We will be working closely with our MOE colleagues from the infrastructure team and the contractors to ensure the safety of our students and minimise disruptions to school operations.

Our safety and operations measures include placing safety boardings to ensure that noise and dust does not interfere with our canteen and classrooms, procedures to control access of workers and equipment to the work site, and co-ordination of schedules to minimize noise and disruptions to classes. We have also planned the use of alternative sites like the Indoor Sports Hall for certain CCAs affected by the works.

Do feel free to reach out to us if you have any queries

Yours sincerely  
Cantonment Primary School
