Dear Parents / Guardians,

Invitation to Terra Village @ Cantonment

Terra Village @ Cantonment is an annual event organized by Cantonment Primary School to nurture and empower students to realise their potential in making a difference to others as Concerned Citizens, Innovative Thinkers and Passionate learners.

In line with the Singapore Green Plan 2030, the event seeks to create a common space to bring our students together through eco-initiatives and celebrate the outcome of the thinking process that students go through as they work on environment related projects. This year the proceeds from our students' efforts will be donated to the Plant-A-Tree programme by Garden City Fund, a registered charity and an Institute of a Public Character (IPC) established by the National Parks Board. We believe that by exciting our students towards tree planting efforts, they will learn about the critical role trees play in our lives, and go on to demonstrate respect and care for the environment.

At Terra Village, our students will be selling self-grown vegetables and spreading the "reduce carbon footprint" message. They will also be selling their handmade upcycled products, and spreading environmental messages through carnival games. We believe that through these Values-in-Action projects, our students will learn to be environmentally responsible citizens and passionate advocates for the environment. In addition, our students will also be putting up performances that they have been working hard on during CCA sessions and at home.
